Solidarity with the people in Iran

Karlsruhe, 22 January 2026 — At FIZ Karlsruhe, we are committed to the scientific principles of openness, respect and responsibility- These principles are at the core of our values. In these respects we find the current developments in Iran, where people are facing severe violence in response to peaceful protest, alongside extensive restrictions on digital communication and access to information, extremely alarming.

The reports, images, and enforced silences reaching us are deeply troubling. Several members of our organization are experiencing profound emotional distress: fearing for the safety of their families and friends, waiting anxiously for rare opportunities to communicate amid the digital blackout, and grieving the lives lost to violence. Bearing this sorrow while trying to sustain everyday life is an extraordinary burden. It calls for understanding and compassion.

We want to say loud and clear: our Iranian colleagues are not alone. We stand with them, we acknowledge their grief, and we recognize the heavy emotional toll of witnessing such events from afar. In moments like these, humanity, empathy, patience, and compassion are essential.

We are committed to a culture of solidarity at FIZ Karlsruhe. We encourage all colleagues to be attentive and compassionate, to offer support where possible, and to respect that grief, fear, and exhaustion may shape these days for our colleagues and friends who are directly affected. Our shared values of respect for human dignity and responsibility toward one another guide us in times of crisis. Standing together and showing care matters, especially now and in such moments.

.....
FIZ Karlsruhe – Leibniz Institute for Information Infrastructure is one of the leading addresses for scientific information and services and a member of the Leibniz Association. Our core tasks are to provide science and industry with professional research and patent information and to develop innovative information infrastructures, with, for example, a focus on research data management, knowledge graphs and digital platforms. To this end, we conduct our own research, cooperate with renowned universities and research associations and are internationally and interdisciplinarily networked. FIZ Karlsruhe is a non-profit limited liability company and one of the largest non-academic institutions of its kind. For more information, please visit www.fiz-karlsruhe.de/en
